# Youth Preaching Workshop

In his time, St. Dominic had a dream of creating a group of women and men dedicated to the Gospel, who would go throughout the world and preach the “Good News” of God’s love.

In our time, we have a dream! Our dream is to set our young people on fire for that same Gospel by exposing them to new and creative ways to preach. Ways which empower them to participate in preaching that “Good News” of long ago.

Would you like to learn more about that dream and how you can become a part of it?

If so, contact S. Gina Fleming, OP and find out more about the program!
